Any information on our CD would be appreciated.

## SHOWS AND SWAPS

This section is free of charge to anyone interested in having an announcement of their coming show published. We will be glad to print any information you would like to send to us. CROSS ARMS will furnish award ribbons to any show or swap meet that requests them. Any club or show host interested in awarding CROSS ARMS ribbons please contact us for particulars.

The guide for the calendar is as follows:

(B. S.) for bottle show.

(I. S.) for insulator show and swap.

(+) indicates more information is available on the following pages.

### CALENDAR

#### SEPTEMBER

- 2, 3 (I. S. & B. S.) Milwaukee, WI. The Spot.
- 2, 3 (I. S. & B. S.) Hutchinson, Kans. Sports Arena.
- 3 (B. S.) New Holland, Pa. Liberty Fire Hall.
- 10 (B. S.) Pekin, IL Elks Club.
- 15, 16 (I. S. & B. S.) Monroe, LA. Twin City Shopping Center.
- 23, 24 (B. S.) Louisville, KY Armory Exhibit Hall.
- 24, 25 (B. S.) Reno, NV Washoe County Fairgrounds.

#### OCTOBER

- 1 (I. S.) (+) Middletown, N. Y., B. S. Enterprises.
- 1 (B. S.) Canton, Ohio. Imperial House Motel.
- 7, 8 (related telephone items) Coffeyville, Kansas.
- 8 (B. S.) Bridgeport, Conn.

14, 15 (I. S. ) (+) St. Charles, IL  
17 (B. S. ) Willingboro, N. J. Vol. Fire Co.  
21 (B. S. ) Los Angeles, CA. Glendale Civic Aud.  
21, 22 (I. S. ) El Paso, Texas. Nat'l Bank Bldg.  
22 (S) Keene, N. H. Keene Recreation Center.  
22 (B. S. ) Columbus, Ohio. Ramada Inn.  
22 (B. S. ) Pittsburgh, PA. Sheraton Motor Inn.  
29 (B. S. ) (+) Sellersville, PA.

### NOVEMBER

5 (I. S. ) (+) Vienna, VA.

### APRIL

29 (I. S. ) (+) Rehoveth Beach, Del.

## ADDITIONAL INFORMATION

### OCTOBER 1

Second insulator show and trade of 1972 will be held by B. S. Enterprises in Fancher Davidge Park, Middletown, New York. Each six foot table length reservation is \$3.00 and a 12 ft. table is \$6.00 including admission. Admission for general public is 50¢. Set up time is 9 a. m. with general admission open at 10 a. m. Please have reservations in by Sept. 23rd. Write to B. S. Enterprises, 40 Lafayette Ave., Middletown, New York.

### OCTOBER 14 & 15

The site of the first Annual Chicago Mid-West National Insulator "JUMBO" show will be Kane County Fairgrounds.

There will be 200+ tables available inside large building, outside set-ups available-300+ car parking. Lighting rod balls, arrows, and vanes will be a special feature at the show.

Display tables are \$10/day; booths (3 tables)-\$25/day. For reservations:(312) 766-3705 or write Dick Augustyn, 650 South Harvard Ave., Addison, IL 60101 or Larry Veneziano, 324 Hawthorne Dr., Bensenville, IL 60106.

### OCTOBER 29

Delaware Valley Bottle Club will hold a show and sale at the V. F. W. Forrest Lodge, Rt. 309, Sellersville, PA. from 10 AM to 6 PM. Featured will be inks, fruit jars, flasks, insulators, etc. Free parking. Admission will be \$1. For information on table space write: Midge Jurin, Box 330 Rt. 152, Perkasio, PA 18944 or call (215) 257-4185.

### NOVEMBER 5

Eastern Insulator Club 1972 Fall Show and Sale. Vienna Vol. Fire Dept., 400 Center St. South, Vienna, VA. Guests of honor will be Mr. & Mrs. Marion C. Milholland. Contact: O. B. Crockett, 5710 Belfast Lane, Springfield VA 22150. (703) 451-7555 or Jim Barron, 6815 Darby Lane, Springfield, VA 22150 (703) 971-1647.

### APRIL 29

First State Insulator Swap Show and Sale at Rehoveth Beach Convention Hall. 100 tables available. Opens at 6 AM for dealers and 9 AM to 5 PM for public. Admission will be free. Tables are \$7 and \$5 for 1/2 table. There will be door prizes and ribbons. Please have reservations in by April 15 to Charles Irons, Jr. No. 3 Elizabeth St. Milford, DE 19963.

ADVERTISING RATES are as follows:

DISPLAY ADS:

1/4 page - \$5.00 per issue  
\* \$12.00 per three issues

1/2 page - \$10.00 per issue  
\* \$25.00 per three issues

Full page - \$18.00 per issue  
\* \$45.00 per three issues

CLASSIFIED ADS

\$.05 per word ( minimum \$1.00). The closing date for material will be the 15th of the month preceding the month of the issue.

Ads received too late for the deadline will be run in the next issue. In order to keep CROSS ARMS up to date we would like all reports on shows and swaps sent in no later than 45 days after the show has taken place.

We will do our best to make sure all advertisers are reliable but cannot be held responsible for the validity of their copy nor for their performance. We accept no responsibility for errors except to reprint the incorrect portion of the ad in a later edition.

Send black and white prints or copies as they will reproduce with more satisfactory results. All material will be returned to the sender if specified, all other material becomes the property of CROSS ARMS.

## EASTERN INSULATOR CLUB

### MILHOLLANDS NAMED HONORARY MEMBERS

Mr. and Mrs. Marion Milholland, for their great contributions over the years to the hobby of insulator collecting, have been named honorary members of the Eastern Insulator Club. In accepting the membership, the Milhollands said, "We are very pleased and honored . . . we hope to meet all of the members this fall when we plan to attend your meeting."

The Eastern Insulator Club now boasts 93 members in 15 states, plus the District of Columbia.

### CHANGES IN CONSTITUTION PROPOSED

In keeping with the Eastern Insulator club's goal of providing the utmost in benefits for club members at the lowest possible cost, several changes in the Constitution and By-Laws have been recommended by the Executive Committee. Slated to become effective at the beginning of 1973, the changes will be listed on a ballot and mailed to the membership next month for approval. The proposed changes center around two categories of membership, the "subscribing member," and the "non-subscribing member." Both categories would receive a variety of discounts on books, reduced admissions and table fees at shows and meets, etc.

### CLUB MEET PLANNED

Highlight of the Vienna, VA meet held at the Volunteer Fire Dept. will be a visit by Mr. and Mrs. Marion Milholland, authors of MOST ABOUT GLASS INSULATORS. Plan to come and spend the day, meet fellow Club members from all over the East Coast.

## LETTERS TO THE EDITOR

In our July issue we had a picture sent to us by Steve Bobb of Audubon, PA. Since then we have received the following replies:

Dear Jim:

This insulator is pictured in Brown's book pg. 40, and you'll note he has a clue that it might have been made by Wisc. Porc Co. This is the "twist-lock" type of "wire-holder" insulator.

Without the company literature on this item, I cannot say how it was intended to be used. However, it appears obvious that it was used in applications where it was convenient to first install the insulators and then to string the wires. It also is useful in cases where broken insulators can be replaced without the necessity of cutting the wire.

Needless to say, this insulator is used in "slack wire" applications much the same as the standard "forestry" insulators. That is a tie wire is not used and the conductor can ride through the insulator if the tree (or other support) moves back and forth. The U-186 porcelain pin type is identical in principal with your specimen. This is covered by Patent No. 1, 107, 111, Aug. 11, 1914 , B. S. Purkey.

Best regards, Jack Tod.

\* \* \* \* \*

This letter comes from Mike Bonne of Knightstown, IN.  
Jim,

I thought I'd write about the porcelain insulator pictured on pg. 21 of the July issue. We have, as far as I know 4 such insulators here in Knightstown. 2 are screwed

horizontally into a tree and carry wires. The other two are on opposite ends of a "2 X4" bolted on a pole. They are vertical and "look" like they were used to carry the wires around the corner (they're not it use now).

Enclosed is a photo of a little porcelain I picked up in a communications insulator storage acerage, the only emb. is R T & SON it is glazed all over except pinhole & bottom. It's white, the groove is closer to the top than bottom. Several inquiries have been unsuccessful, is there even ANYTHING else embossed R T & SON???

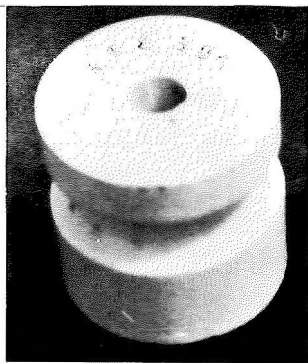

EDITOR'S NOTE:

My own impression was that R T & SON stood for R.

Thomas & Son. but Jack Tod had never seen a R T & SON embossed. His information only lists R T & S CO

After taking a foil rubbing (as Jack suggested) Mike

and I seem to agree that it must be R T & S CO. There seems to be a dispute as to whether it stands for R. Thomas and Son as a similiar insulator was found on the right of way of Rochester Transit & Subway Co. (note initials). Would be interesting to hear any comments anyone has on anything with similiar embossings.

---

Jack Tod has suggested that anyone who has an embossing they would like to reproauce could do so easily by placing a piece of new and smooth aluminum foil over marking and repeatedly pressing all over details with pencil eraser. To keep the impression from being damaged by mail, cut a hole in the cardboard which would fit over and "cushion" the rubbing, then tape to card-

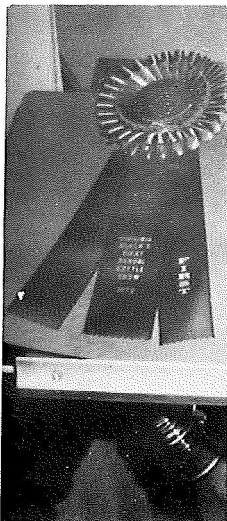

board. Another way is to put a puddle of glue on back of foil marking and allow to dry for a day then tape to letter in position where it will be lower left corner of envelope when inserted-to keep it away from the cancelling roller.

\* \* \* \* \*

Dear Jim:

I am enclosing the two pictures of our show at Virginia Beach. There were 4 blue ribbons awarded and we were one of the blue ribbon winners as well as winning the Best in Show which was considered top winner. It was quite a shock to Virginia Beach's First Annual Bottle Show & Sale held at the Cavalier Hotel on April 15 & 16 because insulators are not popular at all in this area!! The only two insulator dealers at the show were Jim Meyers from Fla. and Larry Veneziano from Illinois. This was the first grand win for insulators at any bottle shows in our area as far west as Richmond, V

Sincerely, Jody & Bob Lindsay.

## KNOW YOUR COLLECTOR

Collector of the month for September is Jim Barron of Springfield, VA. Jim has been collecting about 1 1/2 years. He is Treasurer of the Eastern Insulator Club, and an employee of Bell Telephone which ties his hobby in with his work.

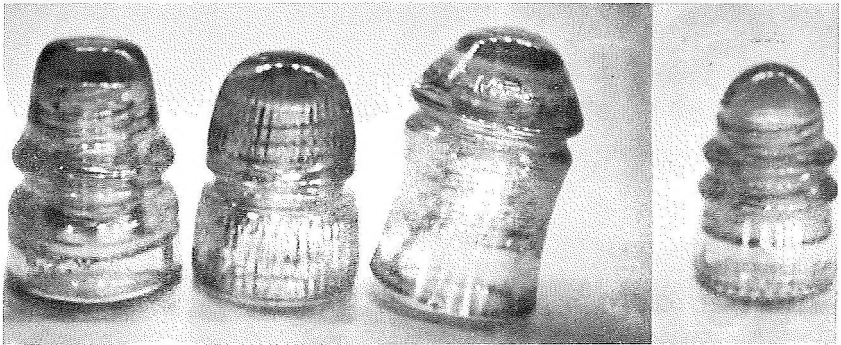

Jim is pictured in front of part of his collection and holding a CD 308 no name.

## MARKET NEWS

### COMING - -

A new book on porcelain insulators by Frances Terrill release sometime this fall.

Sometime next month Marion Milholland will be re-releasing his 1973 Price Guide for his book "MOST ABOUT GLASS INSULATORS--REVISED".

We understand Jack Tod is in the process of making a 1972 supplement to his book "PORCELAIN INSULATORS GUIDE BOOK FOR COLLECTORS".

Brad and Nancy Cook of Ludlowville, N. Y., will hold their Ithaca Meet on April 14 & 15, 1973.

## PATENT INFORMATION

Patent No. 105,834, dated July 26, 1870.

I, Samuel Oakman, of Boston in the State of Massachusetts, have invented a certain new and useful Telegraphic Insulator.

The nature of my invention consists in constructing, as an article of manufacture, an insulator of glass, so formed interiorly that it may be easily and securely attached to its support, and exteriorly that it protects the wire surrounding it and its supporting-plug.

Figure 1 is a perspective view of my insulator.  
Figure 2 is a vertical section, showing the insulator and supporting-plug.

The outside of my insulator is made of the general shape represented in fig. 1. The object of the projecting flange is to protect the wire from rain.

The interior of my insulator is formed, as shown, in fig. 2. If the stock "H", fig. 2, is driven in, with the wedge "K" inserted as shown, the wood will fill the incline recesses and thus hold the insulator firmly in place.

By this arrangement it will be seen that, when the insulator is once fastened to the stock "H", it will not work off, as the wood is forced into the recesses.

S. OAKMAN.

No. 105,834.

Patented July 26, 1870.

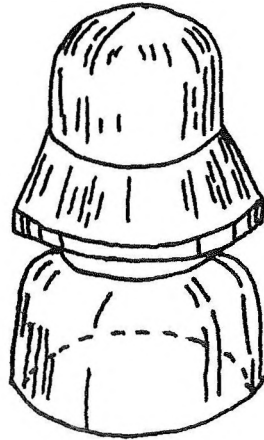

Fig. 1.

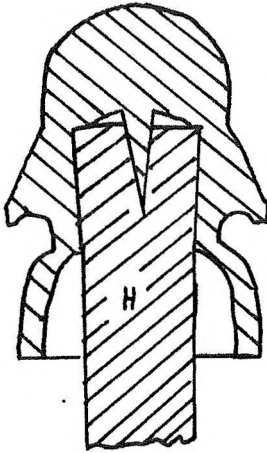

Fig. 2

*Samuel Oakman*

Base Embossed: Am. Ins. Co. Pat. Sep. 13, 1881

Dome: a number. Smooth base.

Crown embossed: W. E. Mfg. Co.

Front: Patent Dec. 19, 1871

Back: (crown) W. U. Smooth base.

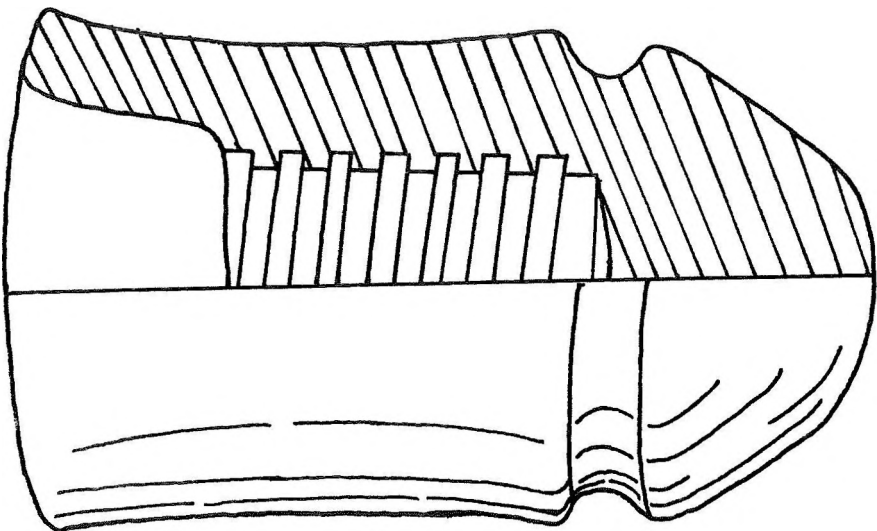

Crown embossed: W. E. Mfg. Co.

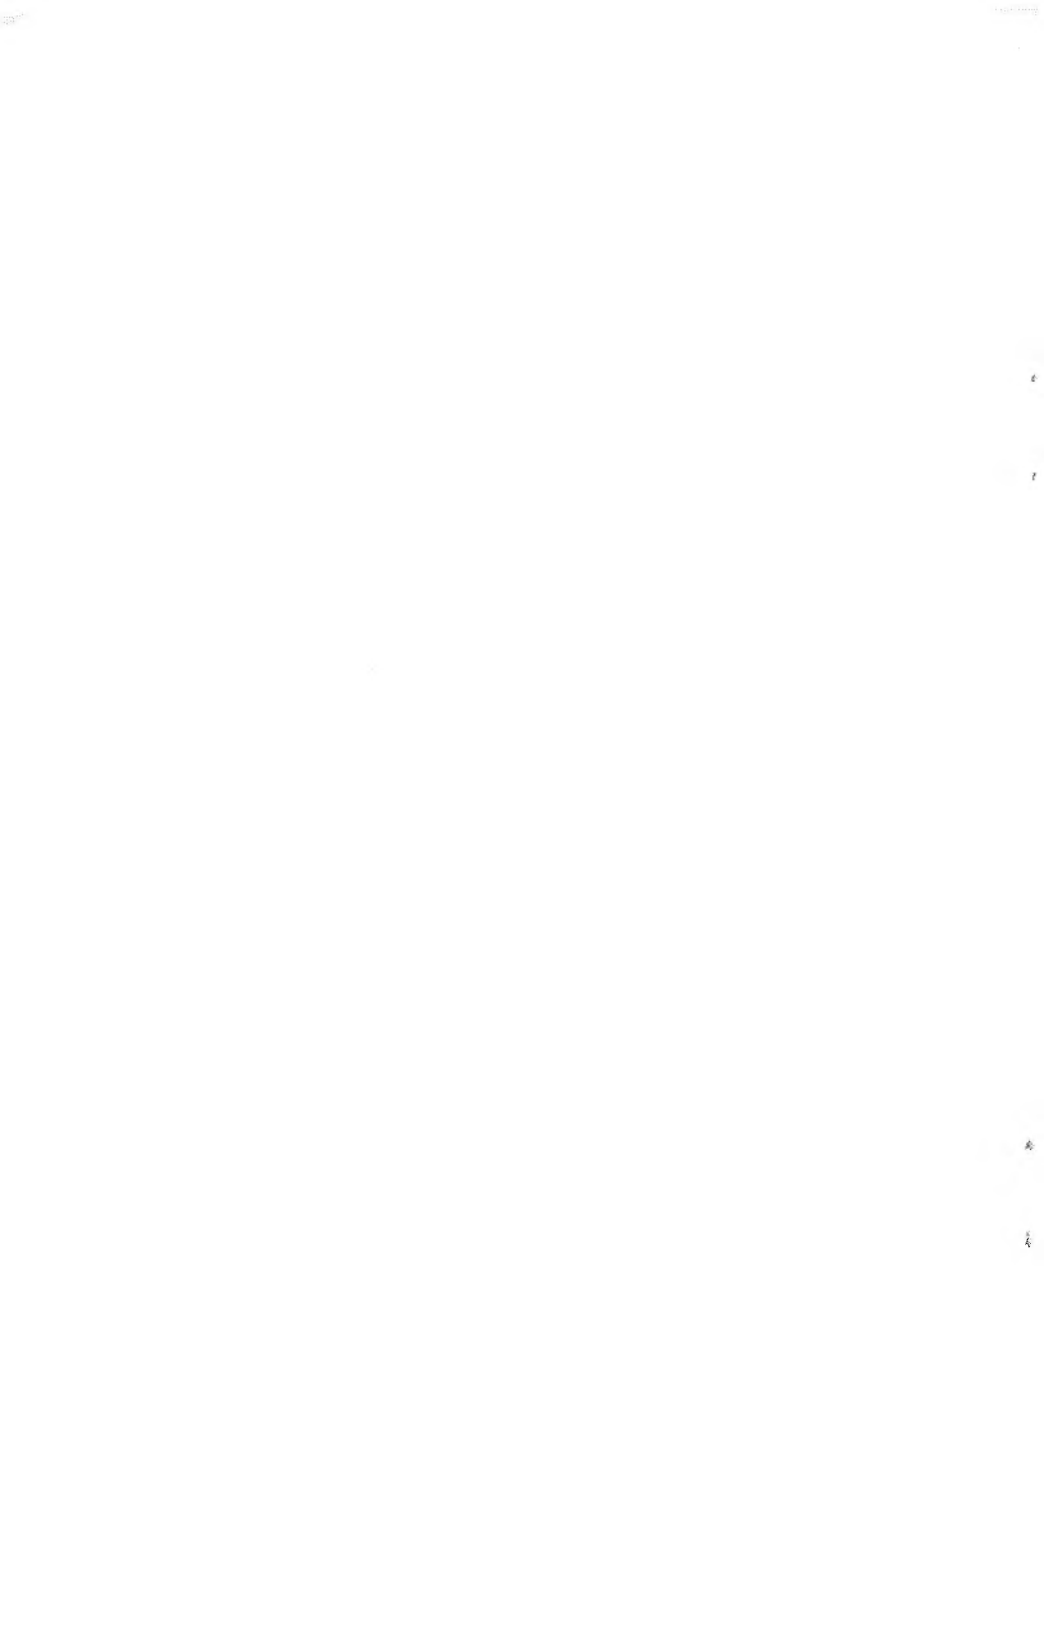

Front: Patent applied for

Back W. U. Smooth base.

CD 426

CD of the month for September is 426. It is a single petticoat, side groove style. This insulator was used primarily by the Western Union Telegraph Company.

## THE BROOKS' PARAFFIN INSULATOR

...Upwards of 100,000 of these Insulators have been sent to California this season, mostly for the Central Pacific Railroad.

A letter from Mr. F. L. Vandenburg, Sup't, dated Sacramento, Feb. 10th, 1868, says: "I consider your Insulator the greatest invention introduced into the telegraph since its existence."

---

PHOENIX IRON CO., 410 Walnut St., Phila. Nov. 5, 1868

Dear Sir: We have been using your new Insulators . . . between this office and our works on the Schuylkill, a distance of twenty-nine miles. . .

---

Office of S. S. Laws' Reporting Telegraph, 18 New St.  
New York, August 7, 1868

Dear Sir: We have used your Patent Paraffin Insulator upon our lines in this city with the most satisfactory results. . . .

FRANK L. POPE, sup't.

---

PENNSYLVANIA RAILROAD COMPANY Nov. 1, 1867

Dear Sir: We have used fifteen thousand of the improved Paraffin Insulators on the lines of the Pennsylvania Railroad, and consider it every thing desired.

J. W. CROUSE

---

Easton, Pa., Nov. 8, 1867

Dear Sir: We have finished the work of erecting new lines, upon which some ten thousand of the paraffin

Insulators have been used. I desire to add my testimony to the very great value of this improvement.

JAS. L. MINGLE  
Sup't Telegraph L. & S. R. R.

---

The above excerpts were taken from a pamphlet published in 1870 by David Brooks to advertise the merits of the Brooks' Paraffin Insulator.

The paraffin insulator referred to in these letters was patented by Brooks in 1864, Patent No. 45,221. It was a rams horn type set in a metal case, the horn being embeded in glass and then set in the metal outer shell. Finally, the remainder of the outer shell was filled with paraffin. See following page for Patent Drawing.

Mr. Brooks went to a lot of trouble to solicit testimonials from a variety of companies that used his insulator. This pamphlet also lists an assortment of tests and exposures his insulators were subjected to.

Again the name of Frank L. Pope appears in connection with insulators. This time as a sup't rather than an attorney. (see patents in August issue-Editor's note).

Some of the questions raised by this research article are:

1. Where are the 15,000 and 100,000 insulators used by the Pennsylvania and Central Pacific Railroad?
2. What railroad company had the initials L. & S. R. R. ?

D. BROOKS.

No. 45,221.

Patented Nov. 29, 1864.

## BERGENFIELD SWAP MEET

Jerry Wagner and Bob Costello of the Mid Atlantic Collectors Association hosted the first annual Bergenfield Insulator swap meet. The meet was attended by 30 collectors and dealers with tables, and a general public admission of 250 people.

Since this was Jerry and Bob's first meet they decided not to award ribbons. Their next show and swap is scheduled for some time in January.

Hosts: Jerry  
Wagner and  
Bob Costello.
